# Stainless Party-KEG

With more than 25 MILLION innovatively designed KEGs manufactured and supplied to the beverage industry over the last 40+ years, Schaefer has proven that they are the stainless steel KEG specialists.

Tap

Air inlet valve

Bavarian Bung

## Special Features

Gravity or Draught Dispensing

Insulated

Easy Cleaning/Filling

Customizable

Highly Durable

The Party-KEG from SCHÄFER has all the utility of a Firkin but with all of the simplicity and durability of a standard keg. Simply release the pressure, knock in the tap and the fun can begin! Equipped with a standard Sankey D fitting and draught spear the Party-KEG can be cleaned and filled as a regular keg, making this innovative product easy to use.

When it's time to dispense the contents, Party-KEGs can operate as a gravity fed system or as a standard draught system! If gravity fed, the spring-loaded valve in the Bavarian bung closes the KEG automatically once the tap is removed. Manufactured from 304 stainless steel, to our highest quality standards, the insulating PU coating can be customized at the factory in one or more colors, with a logo, lettering or slogan for maximum brand recognition.

Standard non-customized kegs come in your choice of Rustic (Faux Wood) or Sleek Black and can also be customize at the brewery with adhesive labels. Non customized Party-KEGs can be shipped immediately in 10, 20 or 30 liter sizes (2.6, 5.2 or 7.9 Gallons).

## Stainless ECO KEG Technical Data

| Size/Volume                    | Height (inches)   | Diameter (inches) | Weight (lbs.) | Valve          | Side Fitting  |
